

Diode Valve Characteristics Apparatus

Objective:

Product Code:GE201

To Plot the Plate Characteristics of a Diode Valve

SPECIFICATIONS:

- DC regulated HT Power Supply of 0-300 VDC/ 30 mA.
- LT Power Supply of 0-6.3 VAC across 4 mm Terminals.
- Two Meters are mounted on the Front Panel to Measure Anode Voltage & Current.
- Octal Base is provided on the Front Panel to Connect Diode Valve 6AL5/6H6
