

Tetrode Valve Characteristics Apparatus

Objective:

Product Code:GE203A

Static Characteristics of Tetrode Valve at Various Grid Voltages

SPECIFICATIONS:

- Instrument Comprises of Two DC Regulated Power Supplies 0-300VDC/30mA & One 0-15 VDC/10mA.
- AC Power Supply 6.3 VAC/1Amp
- Four Round Meters for Voltage & Current Measurement,
- Octal base is provided to connect Tetrode valve 6SJ7.
