

Analog Communication Kit

Productcode: GKE420

Objective: It demonstrate AM, FM & PM (Phase Modulation) Modulation and Demodulation techniques

Technical Specifications:

- It demonstrate AM, FM & PM (Modulation & Demodulation techniques)
- On-board synchronized Source:490 & 65KHz
- On board Modulating Function (Signal) Generator with variable amplitude & frequency
- On-board AM, FM, PM Modulator
- On-board AM, FM, PM Demodulator
- On-board potentiometer for varying depth/percent of modulation
- DC Supply: Builtin IC regulated powersupplies
