

Function Generator 0.1 Hz To 1MHz (Analog)

Product Code: GE 513

- * Wave Shapes: Sine, Square & Triangular Wave outputs at 4mm sockets/terminals.
- * Frequency Range: 0.1 Hz-1 MHz adjustable using fine & coarse controls.
- * Accuracy: $\pm 3\%$ on all the ranges
- * Amplitude for Sine Wave output: 30V peak to peak
- * Amplitude for Square Wave output: 15 V peak to peak
- * Output impedance for Sine Wave: App. 600 Ohms
- * Output impedance for Square Wave: App. 400 Ohms
