

Ammonical Etching Machine

Product Code: GE843

SPECIFICATIONS

Table top compact spray-etching unit for processing of single or double sided PCB s.

- * Two bar oscillating system for evenly spraying etchant.
- * Non corrosive construction with chemical pump and timer,
- * Maximum Board Size: 250mmx300mm (10"x12").
- * Capacity: 10 Liters.
- * Pump: Magnetic Coupled.
- * Heater: Titanium with thermostat control.
- * Timer: 0-4Min.
- * Nozzles: 2 x 3 oscillating fan spray.
- * Filter: 3 layer nylon removable,
- * Electrical power: 230V/50Hz.5ASocketrequired.
